

POINT INDEPENDENCE YACHT CLUB

ONSET, MA

Dear Members,

I hope this letter finds everyone well and looking forward to a great 2018 boating season. Our challenge is to ensure that we offer not only an affordable and expansive boating facility, but also a socially active agenda that appeals to all our members. Along these lines, it is crucial that each of us, as owners of PIYC, work together to maintain the club's physical facility and focus our talents and energy on developing our club for the future. If we all participate in work parties, club meetings, and committees, then our club will run smoothly.

As Flag Officers and members of the Board of Directors, it is our duty to do the best job we can to keep all 120 owning and social members informed of all plans for our club. To this end, we expect to bring additional members into the decision-making and planning processes. This change will make the inner workings of the club more transparent to the entire membership. Hopefully, this will also encourage greater member involvement in committees, which is vitally important in planning for our club's future.

With that said, I want to thank all of you who stepped forward and started work in January on the docks, kitchen, bar electrical, and other necessary maintenance work and improvements. House Committee chairman, Tom Sullivan, has done a great job organizing these projects and the work parties who completed them. Please support him in his efforts to improve the club facilities for all of our benefit.

Also of note, our Regatta Committee chairman, Scott Onanian, has completed the PIYC event calendar for 2018. Our Budget and Finance committee will present its report at our Facilities Meeting on Saturday March 31, 2018.

Please mark your calendars:
Facilities Meeting Saturday March 31, 2018.

Respectfully,

Dan Donovan
Commodore
